#### Explanation of Relief Sought

**Note:** Relief can relate to conflicts over denial of access to records (Utah Code § 63G-2-402) as well as disputes over fees (Utah Code § 63G-2-203(6)) or extraordinary circumstances (Utah Code § 63G-2-402).

The State Records Committee can also use the weighing provision to order the release of records that are properly restricted if it determines that the interests favoring access are greater than or equal to the interests favoring restriction (Utah Code § 63G-2-203(11))

The relief I am seeking is a copy of the audio recording from my polygraph. I believe I should have access to this even if it's considered medical since it is my medical record. I believe having the audio recording will prove that the final polygraph report is inaccurate and will help me to get back into law enforcement.

Thanks,  
Joshua A. Althoff

I believe under code 63G-2-302(1)(b) claiming that a polygraph falls under medical because it monitors some of my vitals shouldn't be the same since I am not getting a medical diagnostics from it just a assumption on what could possibly be true or not. If it is considered a medical document shouldn't I have access to any and all of my medical files UN redacted?

Under code 63G-2-305(10)(d) could reasonably disclose the identity of the source not generally not know outside of government ect. The only people in the polygraph room was myself and Mr. Pickup from Intermountain Polygraph services LLC. In the audio recording no names were brought up that I didn't already know. I believe that the recording will prove that there inaccuracies in his final report and shouldn't have been accepted by the city.
