Re: Under 6 section 63G-2-403 We Appeal the GRAMA denials of bid documents from Park City School district lighting upgrade bid

We appeal Park City School District's denial of our GRAMA request to you the records committee for all the lighting upgrade bid documents related to the LED upgrade bid and request that you honor our GRAMA request and supply them to Advanced Lighting, Inc.

We feel the district should have the requested documents in their possession that the district has denied us access a number of times and should be able to give them to Advanced Lighting under this GRAMA request. This was a state funded project and under the GRAMA act this request should be honored. According to the Hughes letter dated May 23rd, 2016 it plainly states that Park City School District was actively involved in the selection process and reviewing of all bid documents, the District should have all these documents that you denied under this GRAMA request.

Hughes letter states "Having reviewed each of the proposals that were submitted, Hughes and the District determined... The same letter also states that "all parties involved took a hard objective look at the process... after being reviewed by both legal and executive staff for Hughes District personnel...". Likewise, according to your own press release back in May, it states that Park City School District awarded the contract to SES after a rigorous RFP process. It had no mention of Hughes construction. How does the District perform a rigorous RFP process, review all bid proposals/documents and present this project to the school board for approval if the District is not in possession nor does it have access to any of these documents that are requested?

Please honor the GRAMA request and release ALL bid documents pertaining to the Park City LED light upgrade project to Advanced Lighting, Inc.

Sincerely,
X [Signature] 8/10/16
